EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Duane A. Stewart III on 6-10-04.

The application has been amended as follows:

On page 1, line 13 of the specification as filed, after the term "2000," the phrase "now abandoned," was inserted.

On page 14 of the specification, line 6, the phrase "SEQ ID NO: 2" was replaced with the phrase "SEQ ID NO: 7."

In claims 1-2, and 5-6, the phrase "amine solution" was replaced with the phrase "aqueous amine solution."

In claims 3-4 the term "amine" was replaced with the phrase "aqueous amine solution."

2. The following is an examiner's statement of reasons for allowance: The primary reasons for the allowance of claims 1-8 is the inclusion of an aqueous amine solution in the recited methods. A review of the art revealed that at the time the instant invention was made, the

standard procedure for synthesizing 8-amino-2'-deoxyadenosine nucleosides involved the catalytic hydrogenation of 8-azido-2'-deoxyadenosine as originally disclosed by Long et al. (1967). At the time of the instant invention the prior art, or any combination thereof, did not provide any motivation or suggestion to modify the process of Long et al. (1967) by replacing the catalytic hydrogenation step with a step involving treating 8-azido-2'-deoxyadenosine with an aqueous amine solution to form 8-amino-2'-deoxyadenosine, as recited in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janet L. Epps-Ford, Ph.D. whose telephone number is 571-272-0757. The examiner can normally be reached on Monday-Saturday, Flex Schedule.
